

**2010-2011 Post Graduation Activity Report
Cleveland State University Career Services Center**

Each year, the Career Services Center conducts a survey of CSU graduates in an attempt to learn about their employment status and post-graduation plans. The survey asks about employers, job titles, salaries and plans to attend graduate school. Despite the anonymity of the survey, respondents are most reluctant to reveal individual salary information. This piece of information is perhaps the most requested by current students and employers, so we make every effort to reassure respondents that their information remains confidential. Even so, many respondents did not provide that information in this survey.

This year, three tools were used to collect data on graduates: a surveymonkey instrument completed by employers, a surveymonkey poll of students, and a survey card completed by graduates in the bookstore. Combining the student and employer surveys, there were 1,135 respondents. Here are some results of the survey:

- 47% reported that they were working in a job related to their major, a little lower than 2010.
- 41% reported an interest in attending graduate school in the next twelve months, compared to 45% in 2010.
- 96% of those planning to attend graduate school will do so here at CSU.
- 71% plan to use the Career Services Center in the future, matching last year's percentage.

Average Salaries by College

College	Bachelors Degree	Masters Degree
Business	\$47,303	\$49,314
CLASS	\$40,003	\$48,125
Education	\$43,737	\$41,304
Engineering	\$52,356	\$58,194
Science	\$46,576	\$46,875
Urban	\$39,455	\$48,778

Salary Averages for Business Majors

(Note: Salaries under \$25,000 not included in averages)

Major	Bachelors Degree(Range)	N	Masters Degree(Range)	N
Accounting	\$42,181 (\$25,000-\$75,000)	11	\$50,800 (\$46,200-\$60,000)	4
